ABOUT US

Expertise and Passion for classic design

The Maxilite success story began in Switzerland in 2008: even after a long search, we were unable to find the right wheels for our classic cars. The retro wheels available on the market from Italy and Great Britain were beautiful, but could not fully fulfil our requirements and were also not TÜV-certified and therefore not eligible for registration. The decision was made: To produce our own retro wheels according to the German quality standard, TÜV-certified and therefore registrable, which nevertheless authentically capture and reproduce the spirit, finish and style of the originals.

The production of our high-quality retro wheels takes place in established, TÜV-certified factories that, in addition to us, also believe in Original Equipment Manufacturers.

CLASSIC WHEELS
for Porsche classics

CLASSIC WHEELS

for Porsche classics

Our range is constantly growing and includes a variety of car brands. There is hardly a classic Porsche from 1950-2000 for which we do not have a beautiful wheel.

Maxilite wheels reflect the characteristic designs of the past and are certified by german TÜV, the hardest wheel test worldwide.
