## W E L O V E C L A S S I C S

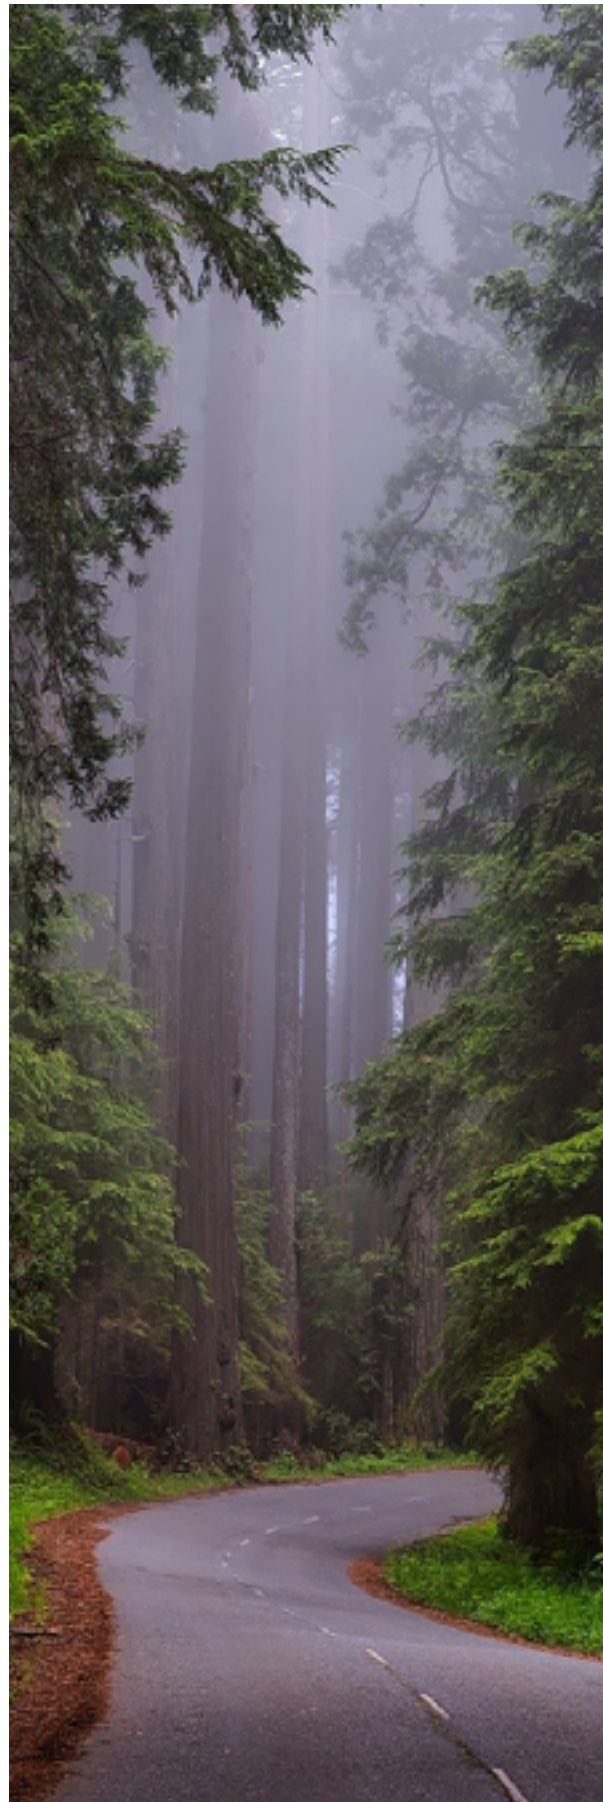

Anyone who drives a young or classic car doesn't just want to get from A to B. Of course, modern vehicles today offer more comfort, more power and more safety than old ones. But the electrifying feeling that you only feel behind the wheel of a car such as an old 911 Porsche or Ford Escort, which drives through you like a bolt of lightning, is simply unique.

As soon as you get in, such a car takes you over completely: Everything is pure, real, mechanical and individual. The cold metal of the handle, the heavy door that creaks slightly when it opens and bangs loudly when it falls back into the lock. The seat, whose soft, fragrant, old leather welcomes you and only seems complete when you sit in it. All the history you feel when you touch the worn leather and old plastic of the steering wheel, shift knob and buttons. The wild, untamed power and perhaps metallic screech and thunder or snotty sound of the engine. The pure, slightly angular mechanics of the gearshift. All this and much more gives such a car a unique character, a personality, and makes it irresistible to us.

## OUR ABC OF CARS

*25.000 wheels for a wide range of brands*

## WORKING CLASS HERO

*Limited Edition by Davide Cironi*

We are very honoured to present the first wheel collection in cooperation with Davide Cironi and are pleased that he has enriched our design team with his passion, expertise and creativity. For this reason, he is also the namesake of this „working class hero“ collection, which bears its name because, with sizes of 5.5x13 and 7x15, it also brings the great, classic cross-spoke design of the 60s and 70s to the smaller, less expensive young and classic cars.

The classic cross-spoke design with polished lip and decorative screws in a three-piece look makes classic car fan hearts beat faster. And with Davide Cironi's signature, this rim becomes a real collector's item.

### *About Davide Cironi:*

Davide Cironi is the founder of the most popular Italian-language web programme for fans of motorsport and classic cars, [driveexperience.it](http://driveexperience.it), and a true self-made man who had nothing but passion and an indomitable

will. Since 2013, he and his team from L'Aquila have stood for authentic, emotional and honest car reports and have had great success with them. Today, he is a real institution when it comes to motorsport and classic cars, thousands of car enthusiasts follow him on social media, he has published his own book and has his own TV show on Italian television.

But Davide Cironi doesn't just let us enjoy the infinite nuances and souls of the cars he tests from the passenger seat in his Drive Experience. In his show, those who were there should remember and those who weren't because they are too young should discover what they missed. However, the format is not only about the past, on the contrary, the present and the future are inevitably part of it. The great old ones, the legends are supposed to inspire and thus let the love for sports cars live on in the future.

## BRABHAM

### Formel 3

#### BRABHAM STYLE

Formel 3

A) 60 degree conical screw seat B) flat screw seat

#### DESIGN

Brabham Racing wheels made of aluminium, not customizable, at an unbeatable price and of course with the excellent TÜV-certified Maxilite quality.

## MERCEDES

### *„Red Pig“ - Mercedes-Benz 300 SEL AMG 6,8*

The birth of the legendary „Red Pig“ was in Spa Francorchamps in 1971 - between the touring cars of the other manufacturers, the AMG tuning company is a real outsider with its large, beefy and cumbersome-looking 300 SEL AMG. But what happened, was what nobody expected: The two rather unknown young drivers Hans Heyer and Clemens Schickentanz were able to achieve 2nd place in the overall ranking and even 1st place in the class ranking with their fiery red S-Class sedan. This sensational success was the breakthrough for the then up-and-coming company AMG!

Today, the Mercedes-Benz 300 SEL AMG 6.8 has an absolute cult factor and fits perfectly with our motto „WE LOVE CLASSICS“. For this reason, the limited wheels of the Red Pig are now available exclusively from Maxilite.

## Ü B E R U N S

*Expertise und Passion für klassisches Design.*

Die Erfolgsgeschichte von Maxilite beginnt im Jahre 2008 in der Schweiz: Auch nach langem Suchen konnten wir nicht die passenden Felgen für unsere Oldtimer finden. Die auf dem Markt erhältlichen Retro-Felgen aus Italien und Großbritannien waren zwar schön, konnten unsere Ansprüche jedoch nicht vollends erfüllen und waren darüber hinaus nicht TÜV-zertifiziert und damit nicht eintragungsfähig. Der Entschluss war gefasst: Eigene Retro-Felgen nach dem deutschen Qualitätsstandard, TÜV-zertifiziert und damit eintragungsfähig zu produzieren, die dennoch den Spirit, das Finish und den Stil der originalen authentisch aufgreifen und wiedergeben.

Was mit einer Hand von Modellen begann, ist heute ein breites Sortiment, das jährlich wächst, bestehend aus Hunderten von verschiedenen Modellen für Aluminium- und Stahlfelgen für die unterschiedlichsten Marken und Fahrzeugtypen von 1950-1990. Es reicht von Vollblutitalienern wie Alfa Romeo, Fiat und Lancia über britische Gentleman cars wie Jaguar, Jensen und MG bis hin zu amerikanischen Urgesteinen wie Buick, Cadillac, Ford und Dodge und von etablierten deutschen Marken wie Audi, BMW, Mercedes, Porsche und VW bis hin zu Exoten wie Jensen, Ginetta und Lotus und längst ausgestorbenen Legenden wie Mercury, Plymouth, NSU, Sunbeam und Triumph oder sogar die Rennwagen der Formel Super Vau.

Die Produktion unserer hochwertigen Retro-Felgen erfolgt in etablierten, TÜV-zertifizierten Fabriken, die neben uns auch Original Equipment Manufacturer beliefern (OEM).

## RENNFELGEN AUS MAGNESIUM

ultraleicht & maßgefertigt

„Racing is life.  
Everything before or after is just waiting“  
Steve McQueen

Frei nach Steve McQueen „Racing is life. Everything before or after is just waiting“ endet bei uns „WE LOVE CLASSICS“ nicht auf der Straße, sondern geht auf der Rennstrecke weiter.

Mit unseren ultraleichten, maßgefertigten Rennfelgen aus Magnesium unterstützen wir Sie dabei, die legendären Renn- und Formelautos aus den goldenen Tagen von Legenden wie Jackie Stewart, Jack Brabham, Juan Manuel Fangio, Sterling Moss, Graham Hill, Jim Clark, Jacky Ickx, Jochen Rindt, Emerson Fittipaldi, Niki Lauda und vielen mehr weiterhin zu Höchstleistungen zu bringen.

Die ehemalige britische Marke Berazzi, bekannt für die Herstellung von Rädern für historische und klassische Rennwagen der 60er und 70er Jahre, gehört nun zu Maxilite und bereichert die Produktpalette im Rennsportbereich.

Berazzi Rennfelgen zeichnen sich nicht nur durch bekannte Designs vergangener Zeiten aus. Sie sind auch feinste Maßarbeit, so individuell, wie der jeweilige Rennwagen und für Höchstleistungen entwickelt.

Ihre Konstruktion bietet uns volle Flexibilität bei der Anpassung an die individuellen Anforderungen jedes Wagens, um möglichst kostengünstig ein breites Spektrum an Lochkreisen und Breiten abzudecken.

Aus hochwertigem Magnesium gegossen, röntgengeprüft, spannungsfrei gegläht und in unserer eigenen Werkstatt in England fertiggestellt, sind Berazzi Rennfelgen besonders leicht und damit perfekt für den Rennsport, insbesondere für Formel- und andere Rennwagen von Herstellern wie Chevron, Lola, March und Brabham.

## REPLICA

Die Berazzi Replika-Rennfelgen sind ideal für Formel- und andere Rennwagen von Herstellern wie Chevron, Lola, March und Brabham geeignet, lassen sich aber auch auf Autos anderer Hersteller anpassen.

### BESTE QUALITÄT

Alle Berazzi-Felgen sind aus hochwertigem AZ91 Magnesium gegossen, röntgengeprüft, spannungsfrei gegläht und in unserer eigenen Werkstatt in England fertiggestellt.

### VOLLE FLEXIBILITÄT

Welche Breite?

Zentralverschluss oder Lochkreise?

- Ausschließlich Anwendung auf 13-Zoll-Felgen, jedoch Anpassung der Breite auf 5"-14"
- Mittelnabenanpassung an jede Nabenkonfiguration
- Zentralverschluss oder beliebige Lochkreise

### SIE BENÖTIGEN HILFE?

Klassisches 4-SPOKEfelge im Brabham-Stil

# SPEED

Die Berazzi Speed-Reihe wurde speziell entwickelt, um nicht nur eine Anwendung auf den Rennwagen der großen Hersteller, sondern auch auf möglichst vielen der kleineren Hersteller, insbesondere der Formel 1 und 2, sowie bei den vielen Sportprototypen der späten 60er Jahren bis heute zu finden. Aus diesem Grund orientiert sie sich auch hinsichtlich des Designs mehr am Stil unabhängiger Radhersteller.

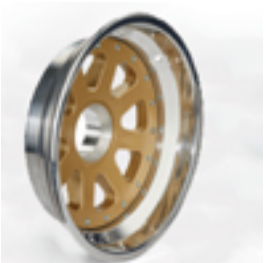

## SPEED 4 4/MF
