

ABOUT US

Expertise and Passion for classic design

The Maxilite success story began in Switzerland in 2008: when we could not find the right wheels for our classic cars. The retro wheels available on the market from Italy and Great Britain were beautiful, but could not fully fulfil our requirements and were not TÜV-certified. The decision was made: To produce our own retro wheels according to the German quality standard, TÜV-certified, which nevertheless authentically reproduce the spirit, finish and style of the originals.

The production of our high-quality retro wheels takes place in established, TÜV-certified factories that, in addition to us, also produce for Original Equipment Manufacturers.

With the purchase of the well-known former British brand Berazzi Racing Wheels, we are now also very strongly positioned in the three-piece and customisation sector and can offer high-quality three-piece wheels in magnesium and aluminium.
